

STEC RTPB SERIES ROTOTILT GRADING BUCKET

STEC RTPB series excavator grading buckets are available in capacities ranging from 500 to 2000 liters.

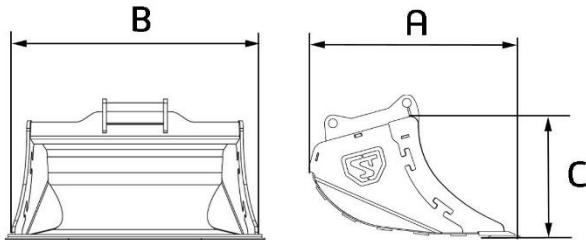

Our products' key benefits result from the use of the puzzle system, which ensures outstanding assembly quality and exceptional durability of weld joints. As a result, our products maintain their long-lasting resilience, even in the most challenging conditions.

STEC products are available in three different strength classes:

The BC series is designed for light and non-abrasive materials.

The GP series is designed for regular excavation work.

The HD series is engineered for heavy-duty operating conditions.

MACHINE WEIGHT	PRODUCT CODE	VOLUME	LENGTH (A)	WIDTH (B)	HEIGHT (C)	CUTTING EDGE	WEIGHT
8-12 t	STEC RTPB 05	0.5 m ³	1150	1500	740	20	390
